PROFESSIONAL SUMMARY

Artificial Intelligence and Machine Learning professional with hands-on experience across cybersecurity, Python development, machine learning, robotics, web development and UI/UX. Experienced in developing academic AI/ML solutions, working with data preprocessing and model development, and contributing to technology-driven product environments. Strong interest in practical software engineering, problem solving, security-oriented systems and emerging AI technologies.

PROFESSIONAL EXPERIENCE

Techard Solutions <i>Associate Security Engineer</i>	2026 – Present <i>Bengaluru</i>
- Contributing to the development and testing of security-focused software products and technology solutions. - Working with product and engineering teams to understand requirements, develop solutions and support product implementation.	
Emglitz Technologies <i>Robotics Intern</i>	Dec 2024 – Jan 2025 <i>Coimbatore</i>
Developed practical problem-solving skills through robotics and automation activities.	
Magora Info Tech <i>UI/UX Development Intern</i>	May 2024 – Jun 2024
Designed user-friendly interfaces and wireframes for web applications with focus on usability and responsive layouts.	
Nexus Global Solutions <i>Web Development Using Python Intern</i>	May 2024 – Jun 2024 <i>Coimbatore</i>
Developed basic web applications using Python and web technologies.	

EDUCATION

Sri Krishna Adithya College of Arts and Science, Coimbatore <i>B.Sc. Artificial Intelligence & Machine Learning</i>	2023 – 2026 80%
Islamiyah Matriculation Higher Secondary School, Coimbatore <i>Higher Secondary</i>	2022 – 2023 74%

TECHNICAL SKILLS

Programming: Python, C++
Database: MySQL
AI / Machine Learning: Artificial Intelligence, Machine Learning, NLP, Scikit-learn, Pandas, NLTK, Matplotlib
Tools: MS Word, MS Excel
Soft Skills: Problem Solving, Teamwork, Communication, Adaptability

PROJECTS

Sleep Health and Lifestyle Prediction Using Machine Learning <i>Python, Pandas, Scikit-learn, Matplotlib</i>
Developed a machine learning solution to predict sleep quality using lifestyle factors including BMI, stress level and physical activity.
Intelligent Abnormal Electricity Usage Detection System <i>Python, Machine Learning</i>
- Built an AI/ML-based system to identify abnormal electricity consumption patterns and unusual usage spikes. - Applied preprocessing and pattern analysis techniques to support energy monitoring and reduce electricity wastage.
Text Summarization with Python <i>Python, NLTK, NLP</i>
Developed an NLP-based text summarization tool using preprocessing, tokenization and keyword extraction techniques with NLTK.

JOURNAL PUBLICATION

Automatic Autopilot Activation During Pilot G-Force Unconsciousness Proposed an automated aviation safety system designed to activate autopilot during pilot unconsciousness caused by extreme G-force. <i>International Journal of Research Publication and Reviews (IJRPR)</i>	Volume 7, Issue 4 Apr 2026
---	-------------------------------------

CERTIFICATIONS

Coursera: Develop a Free Website with WordPress; AI Engineering; Generative AI for Software Development.
VOIS: AI Design Challenges; Exploratory Data Analyst; Neural Network in Python.
